DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 7/7/2004 have been fully considered but they are not persuasive. The applicant has argued that the reference do not disclose a transaction device. However Carter teaches that it is well known to use a credit card to complete the transaction. The application specification specifically uses a VISA credit card as an example of a transaction device.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 3. Claims 2-7, 9-13, 20-24 are rejected under 35 U.S.C. 102(b) as being anticipated by Carter (US 5,926,798). Carter discloses every aspect of the present invention. (see Non-Final Action mailed on 2/3/2004). Further it should be appreciated that Carter discloses the use of Credit Cards (Transaction Devices as exampled in the applicants specification page 9, line 1).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

7

Application/Control Number: 09/930,608

Art Unit: 3644

Page 3

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

1. Claims 2-7, 9-13, 20-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Carter in view of "Tryllian Mobile Agents: Going beyond the Web" (herein referred to as "Tryllian"). Carter discloses the claimed computer-implemented method in which at least one intelligent agent negotiates the purchase of a product or a service on behalf of a party (see Col. 2, lines 65-Col. 3, line 30) except for the personal data selected from the group consisting of "historical purchases activity, potential future purchase activity, and a group to which the party is a member. However the above claimed personal data are all well known in the art to be useful in price negotiation. (Sam's Club is one example of the above claimed subject matter). It would have been obvious to reward to purchaser with better prices based on group memberships and potential future purchase activity. (Note: it should be appreciated that purchasing through an agent is inherently anonymous). Tryllian teaches that it is well known and old in the art to use a transaction device. (see page 8, lines 11-14 "Secure Lines". It would have been obvious to one having ordinary skill in the art at the time the invention was made to use the transaction device of Tryllian in the system of Carter for increased convenience of purchasing.

Re - Claims 2, 9, 20: using the agent to reduce a price (see col. 2, lines 67).

Re - Claims 3, 10, 21: It is old and well known in the art that a purchaser must register with an online purchaser before purchasing.

Application/Control Number: 09/930,608

Art Unit: 3644

Re - Claim 4, 11, 22: Carter discloses that it is known to perform data mining operation related to the purchase of one of the product and the service. (See Col. 3, lines 1-30)

Page 4

Re - Claim 5, 12, 23: It is well known in the art that a secure link must be established between a client and server during the transfer of sensitive information (i.e. Credit Card, Contact information)

Re - Claim 7: Carter discloses that it is well known to do a price comparison between two suppliers. (see Col. 3, lines 1-30)

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
